

Academic Achievers Program 2022

17 June 2022

Dear Students, Parents and Guardians,

We are excited to invite students from years 5 to 9 to be a part of our Academic Adventurers Program for Semester 2, 2022.

The Semester 2 program is comprised of a diverse range of subjects designed to extend and challenge our inquisitive and passionate learners, and is open to students in years 5 to 9. Building on the success of our semester 1 courses, semester 2 provides students with the opportunity to further explore their individual interests and strengths and further enhance their foundational knowledge for future studies.

This program runs as an additional subject allocation aligned to the Australian Curriculum and will complement students existing studies. The Academic Adventurers program runs from 2:55pm – 4:05pm twice per week. Subjects are a semester in duration. Enrolment in the program is voluntary and students can nominate for single or multiple offerings based on their individual strengths and interests. The only pre-requisite for the program is that students are achieving at a C level or above in the core curriculum for the subject that they are enrolling in (e.g. if they wish to study a mathematics based subject, they must be passing mathematics core).

A list of subjects that are available to study during Semester 2 are listed on the following page and are provided at no cost to families. I encourage you to talk child/ren about this exciting opportunity and complete and return the attached expression of interest form.

Students and parents who have any questions, can speak with Secondary Curriculum Heads of Department, or contact the Secondary Head of School.

We look forward to students embracing this excellent opportunity.

Kind regards

Samantha Hawkins
Head of School – Year 7-12

Andrew Beattie
College Principal

Academic Achievers Program Semester 2 2022
